Gold trading

Gold mining and mine production does not respond quickly to prices. The project development timeline and mine lifecycle is a very long one – it often takes decades to move from discovery to production.

Crypto Trading

Cryptocurrency Trading is the Forex (Foreign Exchange) of cryptocurrencies. This means, you are able to trade different bitcoin and altcoin normally for USD and BTC. Cryptocurrency Trading is an alternative way to get involved in the Crypto-World! Unlike mining, it doesn't require mining hardware nor investing in bitcoin hyips or bitcoin cloud mining (which always has risk involved in their integrity).

Telstra Investment Limited is offering its Clients the possibility to profit, by taking advantage of cryptocurrency price movements. We make profitable trades exploiting the price difference in the open market on crypto exchanges at different times. We offer one of the best cryptocurrency trading services in the industry working with our high-tech equipment and advanced software for real crypto trading.

Loan

telstralimited.com automatically offers loan services to investors with over \$100,000 investment in our normal telstralimited.com packages. Investors over \$100,000 are entitled to loans of \$500,000-1million dollars yearly with 5% paid monthly, or the investor could wish to compound the interest till the time limit, provided all required information and identity of the investor are duly confirmed by the telstralimited.com loan board.

Retirement Income

Invest on Our Retirement Plan today and Enjoy a good old age

For employers, defined contribution retirement plans represent freedom from financial volatility, traditional pension risk, market volatility, and long-term financial uncertainty; however, they also impose new risks and responsibilities on the employer. For employees, defined contributions offer individual control, greater flexibility, and, in an ideal world, access to institutionally priced investments. Secure the future of your finance even after you retire.

Real Estate

TELSTRALIMITED

Telstralimited.com offers investment options in most major cities for multi-family, office, retail and hospitality properties. The platform gives investors the opportunity to invest as little as \$100,000 in a project.

About investment

Though that plan may not always work out and investments can lose money, it is also the primary way people save for major purchases or retirement. Ranging from stocks, bonds, real estate, commodities, and modern alternative investments, the digital age has brought about easy, transparent, and fast methods of investing money.
